

### IN THE CLAIMS

Claims 1-52 (cancelled)

Claim 53 (currently amended) - ~~The device of claim 18 including~~ A single donor biological glue processing device, comprising, in combination:

a thrombin processing means,

a clotting and adhesive proteins processing means operatively coupled to said thrombin processing means,

means for receiving plasma via said operative coupling for subsequent conversion of the plasma to, respectively thrombin in said thrombin processing means and clotting and adhesive proteins in said clotting and adhesive proteins processing means, and

a thrombin syringe coupled to said thrombin processing means to receive thrombin therefrom, said thrombin syringe initially ensconced in a bag, and

a clotting and adhesive protein syringe coupled to said clotting and adhesive protein processing means to receive clotting and adhesive proteins therefrom, said clotting and adhesive protein syringe initially ensconced in a bag.

Claims 54-55 (cancelled)

Claim 56 (new) - The device of claim 53 further including glass, ceramic, or borosilicate beads in said thrombin processing means.

Claim 57 (new) - The device of claim 53 further comprising a filter located between said thrombin processing means and said thrombin syringe.

Claim 58 (new) - The device of claim 53 further including  $\text{CaCl}_2$  and ethanol in said thrombin processing device.

Claim 59 (new) - The device of claim 53 wherein said thrombin processing means further includes a composition that reacts with plasma to produce thrombin.
